S I R:

In response to the Office Action dated April 24, 2002, please
amend the above-identified application as follows:

IN THE CLAIMS:

Please amend Claim 1 as follows:

1. A catheter for placing within a body, the catheter comprising:
a flexible hollow body defining a length between a top end and
a bottom end wherein the top end is closed and wherein the top end
tapers to a cylindrical tube;
a diameter defined by the cylindrical tube;
a width defined by the bottom end of the flexible body wherein
the width is greater than the diameter;
a locking mechanism located on the bottom end of the flexible
body;
a first notch located a distance from a point at which the top
end meets the cylindrical tube; and
a second notch located a distance from the bottom end;
a cylindrical body defining a cross with a length defined
between a pointed end and a flat end;
a first part having a uniform width and a length defined
between the pointed end and the flat end;
